

“ Profile Story “

***This week’s feature : Claire Wenham
(Pictured here with her family)***

Claire was born in Cleveland, Ohio. She grew up with her younger brother Cameron in Westlake. She is currently attending Westlake High School. Now, at age 15, she is planning her future education to include learning skills that incorporate psychology and criminology. Claire has been a steady babysitter, getting good work experience prior to heading out into the world of professional careers.

Her parents, Matt and Lola Wenham, are long time members here at Prince of Peace. They have been involved in many groups and missions here, and this was my motivation to find out more about Claire! Our congregation has a vibrant and growing amount of Youth each Sunday participating at services and other events that stretch throughout the week! This is a wonderful result of many parents

bringing them to POP and encouraging their Faith Journey. The Wenhams have established a great foundation!

Claire considers Hilary Lucas, Beverly Braun, her parents and Pastor Charlie to be her mentors at church. Many have noticed her taking on more responsibility here, which includes Youth Program involvement, serving as a Communion Assistant and singing in the CrossFire Praise Band!

Her hobbies and interests include reading, singing in her school's chorale group, playing volleyball, and spending time with her friends and family. One thing that people may not know about Claire is that she is newly involved with a team at her high school that fundraises money to help cure cancer! Her bucket list is that she hopes one day to travel in Europe, and to go to Ohio State University in two short years! With Claire's high energy level, she should have no problem accomplishing these dreams.

Prince of Peace has so much good happening these days! Anyone ready to jump on and take a ride along will feel very fulfilled. Let's celebrate this story together, God has shown us the Light. Many have responded!
